

Tutorial Task (Contributing on your own repository)

Tasks to Do - Create a repo and push on GitHub

Note that this task can be done during your tutorial time or at your own time.

1. First create a repo on GitHub organisation. Make note of the repo link.
<https://canvas.sydney.edu.au/courses/25875/files/11631416/download?wrap=1>
2. Then clone the repo using the link of the repo you created above.
3. Write some files (say a java file or any random text file really) and commit them locally.
4. Push your changes into the master branch.

Try collaborating with formed groups and create branches, merge/rebase code etc.
