

Tutorial Task (Merge conflict)

Tasks to Do

Work on the following scenarios in your groups:

Scenario one: Two people pull the coding files from main repository. They edit different files and they push on the same time.

1. Follow the GitHub flow to work on the code.
2. What happens if you try to push on the same time?
3. If there is any issue, how do you solve it?

Scenario two: Two people pull the code. They work on the same file. After editing, they try to push at the same time.

1. What happens in this situation?
2. How do you resolve the issue?

Scenario three: Two people pull the code. They work on the same line of code. After editing, they try to push at the same time.

1. What happens in this situation?
2. How do you resolve the issue?
